## SUMMER DH EVENTS

### 2-Day Workshop: Dialect Feature Detection

#### **MODIFIED: Morphosyntactic Dialect Feature Detection Workshop**

**20 & 21 June 2024**

Location: Digital Lab, P.J. Veth 1.07 & 1.01

We are excited to announce a DiFeDe workshop organized by the Re-examining Dialect Syntax Network (REEDs) and Leiden University Centre for Digital Humanities (LUCDH). This 2-day workshop will take place at Leiden University on Thursday 20 June and Friday 21 June 2024. This event is designed to foster collaboration among specialists in dialectology, computational linguistics, and corpus linguistics, with a focus on identifying dialect features from various semi-structured and unstructured sources. This workshop will provide an opportunity for researchers and research groups to reflect on theoretical and/or methodological problems and solutions related to automatic dialect feature extraction.

### **Counterfactual Game Design**

**28 & 29 August 2024**

Location: P.J. Veth 1.07

*Counterfactuals in games has started to catch the attention of various disciplines, aiming to understand just what pasts are (and are not) reckoned with. The fields of historical game studies, media studies and archeogaming have begun untangling the conceptual and theoretical underpinnings of counterfactual play to focus on player experience. In this two-day workshop held at Leiden University on August 28th and 29th, we aim to approach counterfactuals from the other side of the same coin: the processes at play in counterfactual game design and development.*

» **Call-for-Papers deadline 21 June.**

### **CLIN 34 - Leiden 2024**

The 34th Meeting of Computational Linguistics in The Netherlands (CLIN 34), organized by LUCL in

collaboration with LIACS, and LUCDH on **30 August 2024** at Leiden University.

*Call for abstracts: The deadline for submission for abstracts describing work on any aspect of computational linguistics / natural language processing (finished or in progress) is **15 May 2024**.*

» See [website](#) for instructions.

### Eye Tracking Workshop

Dr. Susana Valdez, Assistant Professor of Translation Studies has kindly agreed to teach an eye-tracking workshop in the 2024-5 academic year. LUCDH will be hosting this workshop in our new lab location in Huizinga. We would like to gauge the interest of staff and PhD/MA students in attending such a workshop; and also learn which aspects you would like to see covered by the course.

» If you would like to attend our eye tracking workshop, please help us with planning, by answering a couple of questions on this [FormDesk](#) page.

#### SAILS Lunch Time Seminar:

##### **The impact of ChatGPT on human data collection**

**Tom Heyman**

...In this seminar, we will explore how generative AI can assist researchers, for example, by producing (risk-)free pilot data. At the same time, it also raises a number of questions related to research integrity such as how we can distinguish AI-generated data from "real" human data....

**Monday 24 June 2024, 12:00 - 13:00**

Online only
